

The figure is a sparse matrix plot with both x and y axes ranging from 0 to 60. The x-axis has major tick marks at 0, 10, 20, 30, and 60. The y-axis has major tick marks at 0, 10, 20, 30, and 60. The plot area is filled with black bars of varying widths and heights, representing the non-zero elements of a 60x60 matrix. The bars are distributed across the plot, with some appearing as single vertical lines and others as horizontal or rectangular blocks. The overall pattern suggests a sparse matrix with a specific structural layout, possibly representing a network or a set of relationships between 60 entities.
