

The chart displays the frequency of 1000 data points across 60 categories. The x-axis represents the categories, numbered 0 to 60. The y-axis represents the frequency, with a maximum of 1000. The bars are composed of segments, with the bottom-most bar being entirely black and the others being gray with black outlines. The distribution is skewed to the right, with most data points concentrated in the first 20 categories.
