

The figure displays a 60x60 grid with 1000 data points. The points are distributed in a pattern that resembles a cross or a plus sign, centered around the middle of the grid. The horizontal bar of the cross is located at y=35, extending from x=5 to x=15. The vertical bar is located at x=25, extending from y=15 to y=45. There is a small cluster of points at (25, 25). The points are represented by small black squares.
