

The figure displays a 60x60 grid with a light gray background. The x-axis is labeled from 0 to 60 in increments of 10, and the y-axis is labeled from 0 to 60 in increments of 10. The grid contains several small clusters of gray squares, representing data points. A notable cluster of black squares is located in the lower-left quadrant, specifically between x-coordinates 5 and 15 and y-coordinates 35 and 45. Other gray squares are scattered across the grid, including a horizontal line of squares near y=15 and a small group near the top center.
