

A horizontal bar chart showing the distribution of 1000 simulated values. The x-axis ranges from 0 to 60 with major ticks at 0, 15, 30, 45, and 60. The y-axis has 10 categories. The bars are composed of small segments, with most being light blue and one segment in the 6th category being dark blue. The distribution is roughly bell-shaped, centered around 15-20.
