

The figure displays a 10x60 grid representing the distribution of 1000 data points. The x-axis ranges from 0 to 60, and the y-axis ranges from 0 to 10. The grid is filled with gray squares, with some squares being black, indicating a high density of data points. The distribution is highly irregular, with some rows having many more data points than others. The x-axis is labeled from 0 to 60, and the y-axis is labeled from 0 to 10.
