

A histogram showing the distribution of the number of children per family. The x-axis is labeled 'Number of children' and ranges from 0 to 60. The y-axis is labeled 'Frequency' and ranges from 0 to 10. The distribution is highly skewed to the right, with most families having 0 or 1 child. The frequency for 0 children is approximately 9, for 1 child is approximately 8, and for 2 children is approximately 3. There are a few families with 3 children, but the frequency drops to zero for 4 or more children.
