

The histogram displays the frequency of matrices with a specific number of non-zero elements. The x-axis is labeled 'Number of non-zero elements' and ranges from 0 to 60. The y-axis represents the frequency, ranging from 0 to 10. The distribution is highly skewed to the right, with a peak at 17 non-zero elements, which has a frequency of 10. There are also smaller clusters of matrices with 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, 35, 36, 37, 38, 39, 40, 41, 42, 43, 44, 45, 46, 47, 48, 49, 50, 51, 52, 53, 54, 55, 56, 57, 58, 59, and 60 non-zero elements.
